

The third annual 170.7 mile trek from snow to surf is now history. Congratulations and a warm thankyou go out to all of you who participated in this run over demanding terrain. Those of you who had a chance to lift his eyes above his feet and the sweltering pavement observed some of Oregon's most beautiful landscapes. As if the hills were not enough, the mid 80 degree temperatures and night running made this a supreme physical and mental challenge.

I hope that all who participated found this to be a challenging adventure and welcome alternative to a summer filled with "flat, fast" 10K races. Closer and new friendships and a strong sense of group camaraderie are the major benefits of this kind of event. Another one is the satisfaction of digging down for and delivering that extra effort when you really hurt because you know ten other people are depending on you.

147 of the 150 registered teams toed the line Saturday morning. This represents an incredible growth from last year's 64 team field. 146 teams finished. Incredibly, the one team which did not finish, captained by John Smets, chose to begin the race with only 6 people. When one of them became injured in leg 23, they finally threw in the towel.

The staggered start system appeared to be successful in spreading out our large field. Though next year's field probably will be considerably larger, I do not intend to limit the field. This can be achieved by implementing an expanded staggered start system and providing a large volunteer crew at all exchange points to control traffic, parking, and runners in the road. If you would like to get involved within the planning committee for HTC '85 or have suggestions/criticisms of this year's race, please drop me a note. Next year's race will be August 3.

See you next year,

Bob Foote
